

## Shanshan Luo

---

Contact Information	Department of Applied Statistics School of Mathematics and Statistics Beijing Technology and Business University Beijing, China, 102488	shanshanluo@btbu.edu.cn <a href="https://shanshanluo.cn/">https://shanshanluo.cn/</a>
Employment	September 2022 - present <i>Lecturer</i> School of Mathematics and Statistics, Beijing Technology and Business University, Beijing, China	
Education	September 2017 - July 2022 <i>Ph.D. in Statistics</i> School of Mathematical Sciences, Peking University, Beijing, China. Advisor: Prof. Yangbo He September 2013 - July 2017 <i>B.S. in Mathematics</i> School of Mathematical Sciences, Capital Normal University, Beijing, China.	
Research Interests	My research primarily focuses on causal inference, with specific interest in the following areas: <ol style="list-style-type: none"><li>1. Causal effect: covariate adjustment, data fusion, instrumental variables, measurement error, principal stratification, propensity scores, spillover effects</li><li>2. Causal attribution: individual attribution analysis, continuous outcome attribution</li><li>3. Causal discovery: Bayesian networks, causal mechanisms of latent confounders, proximal variable selection</li><li>4. Missing data: nonignorable missing data</li></ol>	
Publications	<ol style="list-style-type: none"><li>1. Shanshan Luo, Wei Li*, and Yangbo He. Causal inference with outcomes truncated by death in multiarm studies. <i>Biometrics</i>, 2023; 79(1): 502-513.</li><li>2. Wei Li, Shanshan Luo*, Yangbo He, and Zhi Geng. Subgroup analysis using Bernoulli-gated hierarchical mixtures of experts models. <i>Statistics in Medicine</i>, 2023; 42(26): 4681–4695.</li><li>3. Wei Li, Shanshan Luo, and Wangli Xu*. Calibrated regression estimation using empirical likelihood under data fusion. <i>Computational Statistics &amp; Data Analysis</i>, 2024; 190: 107871.</li><li>4. Honglei Zhang, Shuyi Wang, Haoxuan Li, Chunyuan Zheng, Xu Chen, Li Liu, Shanshan Luo*, and Peng Wu*. Uncovering the limitations of eliminating selection bias for recommendation: missing mechanisms, disentanglement, and identifiability. <i>ICDE</i>, Utrecht, Netherlands, 2024.</li><li>5. Feng Xie, Zhengming Chen, Shanshan Luo*, Wang Miao, Ruichu Cai, and Zhi Geng. Automating the selection of proxy variables of unmeasured confounders. <i>ICML</i>, Vienna, Austria, 2024. \*Corresponding author, #Co-first author.

#### Working Papers

1. Shanshan Luo, Mengchen Shi, Wei Li, Xueli Wang, and Zhi Geng. Efficiency-improved doubly robust estimation with non-confounding predictive covariates. *arXiv:2402.14438v1*, 2024.
2. Shanshan Luo, Yixuan Yu, Chunchen Liu, Feng Xie, and Zhi Geng. Assessing the causes of continuous effects by posterior effects of causes. *arXiv:2404.05246v1*, 2024.
3. Wei Li, Yuan Liu, Shanshan Luo, and Zhi Geng. Causal inference with outcomes truncated by death and missing not at random. *arXiv:2406.10554v2*, 2024.
4. Shanshan Luo, Wei Li, Xueli Wang, Shaojie Wei, and Zhi Geng. Assessing interactive causes of an occurred outcome due to two binary exposures, 2024.
5. Jiaqi Min, Xueyue Zhang, and Shanshan Luo. A regression framework for bidirectional proximal causal inference, 2025.
6. Yue Zhang, Shanshan Luo, Zhi Geng, and Yangbo He. Optimal treatment rules under missing predictive covariates: a covariate-balancing doubly robust approach, 2025.
7. Shanshan Luo, Kang Shuai, Yechi Zhang, Yangbo He, and Wei Li. Identification and estimation of causal peer effects using instrumental variables, 2025.
8. Yafang Deng and Shanshan Luo. Bidirectional selection causal model with instrumental variables, 2025.
9. Shanshan Luo, Yue Zhang, Peng Wu, and Zhi Geng. Policy learning via maximizing rewards for pseudo-type classification, 2025.

#### Awards Grants

- Outstanding Graduate of Beijing, 2017.
- National Scholarship, 2021.
- Outstanding Graduate of Beijing, 2022.
- National Natural Science Foundation of China (Youth Program), 2025 to 2027.

## Teaching Experience

Applied Stochastic Processes: Fall 2022

Multivariate Statistical Analysis: Spring 2023, Fall 2023, Spring 2024, Fall 2024, Spring 2025

Causal Inference: Spring 2023, Fall 2023, Fall 2024, Spring 2025
