Employment	September 2022 - present <i>Lecturer</i> School of Mathematics and Statistics, Beijing Technology and Business University, Beijing, China	
Education	September 2017 - July 2022 <i>Ph.D. in Statistics</i> School of Mathematical Sciences, Peking University, Beijing, China. Advisor: Prof. Yangbo He  September 2013 - July 2017 <i>B.S. in Mathematics</i> School of Mathematical Sciences, Capital Normal University, Beijing, China.	
Research Interests	My research primarily focuses on causal inference, with specific interest in the following areas:  1. Causal Effect: covariate adjustment, data fusion, instrumental variables, measurement error, principal stratification, propensity scores, spillover effects  2. Causal Attribution: individual attribution analysis, continuous outcome attribution  3. Causal Discovery: Bayesian networks, causal mechanisms of latent confounders, proximal variable selection  4. Missing Data: nonignorable missing data

#### Awards Grants

Outstanding Graduate of Beijing, 2017.  
National Scholarship, 2021.  
Outstanding Graduate of Beijing, 2022.  
National Natural Science Foundation of China, 2025 to 2027.

#### Teaching Experience

Applied Stochastic Processes: Fall 2022  
Multivariate Statistical Analysis: Spring 2023, Fall 2023, Spring 2024, Fall 2024  
Causal Inference: Spring 2023, Fall 2023
